

## Cascade Road Upgrade

Fulton County, GA

As Fulton County Public Works Director, Collaborative Vice President Angela Parker led the project management and plan review activities for the Cascade Road Upgrade project. This included redesign of sidewalks, curb and gutter elements, decorative street lighting and intersection improvements with turning lanes and signal improvements. The Buffington Road upgrade included sidewalks, curb and gutter, turn lanes and signal improvements. It is part of an overall upgrade designed to improve vehicular traffic movement and enhance pedestrian connectivity in the area.

Improvements overseen included: added turn lanes, signalization, sidewalks, landscape plantings and decorative lighting. Fulton County Public Works Department provide the basic foundation of day-to-day comfort including sanitary sewer and water distribution systems maintenance; stormwater management services; water and pollution prevention education to residents, schools, communities, and businesses; maintenance of paved and unpaved roads, bridges, and traffic signals; coordination of the County's street light program; and management the South Fulton Comprehensive Transportation Plan.
