

Land Development Services

Housing Authority of DeKalb County, GA

An approved vendor for the Housing Authority of DeKalb County, the Collaborative provides a range of land development services. These include land surveying, site planning and engineering, and construction observation. As noted by John Castle, Project Manager, Housing Authority of DeKalb County, “The work performed by Collaborative’s Gilbert Quinones has been instrumental in helping the Authority achieve its affordable housing goals.”

With approximately 175 new homes having been constructed within the 200-single family Eastside Walk Subdivision development, the Collaborative is currently providing land development services for remaining homes. The Collaborative is currently providing master planning and survey services to develop the new 20-30 unit Sugar Mills residential condo development.
