

## Land Development Services

Planning and Community Services Department, Fulton County, GA

The Collaborative provides in-house services for all of unincorporated South Fulton County in the following areas: engineering review for land development; site development and infrastructure inspections; municipal separate storm sewer system (MS4) inspections and program management and; Georgia Soil Water Conservation Commission Local Issuing Authority (LIA) compliance and program administration.

The firm applies best management practices and soil and erosion standards in accordance with State and local regulations and ensures that all roadway and infrastructure improvements within the public right-of-way and public utility easements meet County, State and Federal standards.
